

“The hardest thing in the world to understand is the income tax.”—Albert Einstein

Apparently nuclear physics is nothing compared to figuring out U.S. income tax regulations—and for good reason—the IRS tax codes are over 73,000 pages long. Smoker & Company, CPAs, has built its reputation on ensuring clients pay the least possible taxes legally. In addition to business returns, we offer:

- Tax planning for maximum fiscal benefits and lowest income taxes
- Financials based on in-depth business analysis
- Financial forecasts and projections
- And much more.

### Free Business Consultation

Founded over 25 years ago, we know our business. Contact us for a no-charge, no-strings-attached business consultation at 717-656-7544.
